CONTENTS TO VOLUME 13

NUMBER 1

E. I. ONSTOTT and D. DE BRUIN — 1 — Thermochemical hydrogen production with the sulfur dioxide–iodine cycle by utilization of dipraseodymium dioxymonosulfate as a recycle reagent

M. M. TAQUI KHAN, R. C. BHARDWAJ and C. BHARDWAJ — 7 — Photodecomposition of H_2S by silver doped cadmium sulfide and mixed sulfides with ZnS

H. IMAMURA, T. TAKADA and S. TSUCHIYA — 11 — Hydrogen storage in metal hydrides by the use of methanol: a new way of hydriding by chemical hydrogen carriers

I. P. JAIN, Y. K. VIJAY, L. K. MALHOTRA and K. S. UPPADHYAY — 15 — Hydrogen storage in thin film metal hydride—a review

S. QIAN and D. O. NORTHWOOD — 25 — Hysteresis in metal–hydrogen systems: a critical review of the experimental observations and theoretical models

H. R. HINDS — 37 — News & Views

41 — Calendar of Events

43 — New Patents

45 — Hydrogen Energy and Energy Related Publications and Films

Announcements

53 — 7th World Hydrogen Energy Conference, Moscow, 25–29 September 1988

54 — International Symposium on Heat Transfer Enhancement and Energy Conservation Guangzhou (Canton), China, 2–5 August 1988

55 — Energy Options and the Rural Sector in Developing Countries (LDC), Bologna (Italy), 27–28 June 1988

56 — The Hydrogen Letter

57 — First International Conference on Hydrogen, Methane and Ethanol Energies in Africa, Brazzaville, Congo, 27–30 March 1988

59 — International Association for Hydrogen Energy

NUMBER 2

V. BALTAZAR, D. L. PIRON and T. GUL — 61 — Electrolysers for hydrogen production—an international marketing study

A. K. NANDA and D. L. ULRICHSON — 67 — The kinetics of the reverse Deacon reaction

D. B. DA SILVA and R. S. BITU — 77 — Electrolytic hydrogen production in Brazilian electric utilities—a way to increase return on investments

A. SCHWARZ, K. J. HARTIG and N. GETOFF — 81 — Diffusion controlled photocurrent transients at the surface of thin polycrystalline n-TiO_2 layers

P. SELVAM, B. VISWANATHAN, C. S. SWAMY and V. SRINIVASAN — 87 — Studies on the thermal characteristics of hydrides of Mg, Mg_2Ni, Mg_2Cu and $Mg_2Ni_{1-x}M_x$ (M = Fe, Co, Cu or Zn; $0 < x < 1$) alloys

E. A. DEZUBAY — 95 — Statistical determination of hydrogen fueled flame holder stability

Y. TSUJIKAWA and Y. TSUKAMOTO — 103 — Optimization of hydrogen fueled gas turbine–steam turbine combined cycle

R. F. ALIMOVA, L. F. GOLTSOVA, V. A. GARKUSHEVA, N. I. CHABAK, L. V. KRAVCHENKO, L. B. MAKSIMALDO and M. P. ELKONIN — 111 — Bibliography on the Hydrogen Energy and Technology (USSR) (Editors-in-chief: V. A. Goltsov and V. K. Popov)

Contents

Announcements

131 Calendar of Events
133 New Patents
135 7th World Hydrogen Energy Conference, Moscow, U.S.S.R., 25–29 September 1988
136 International Symposium on Heat Transfer Enhancement and Energy Conservation, Guangzhou (Canton), China, 2–5 August 1988
137 International Conference on Energy Options and the Rural Sector in Developing Countries (LDC), Bologna (Italy), 27–28 June 1988
138 Hydrogen and Materials. Fourth International Conference H4, Beijing, China, 2–6 May 1988
139 An Invitation to Energy Scientists, Engineers and Planners

NUMBER 3

J. DIVISEK, P. MALINOWSKI, J. MERGEL and H. SCHMITZ — 141 Improved components for advanced alkaline water electrolysis

M. A. K. LODHI — 151 Power potential from ocean currents for hydrogen production

M. V. ŠUŠIĆ — 173 Kinetic and thermodynamic research of hydrogen absorption by CoZr and NiZr alloys

O. BERNAUER — 181 Metal hydride technology

S. T. S. AL-ASHAB and I. R. HARRIS — 191 Hydrogen solubility and the equilibrium pressure–composition isotherm for Pd–Eu alloys

E. R. GONZALEZ, L. A. AVACA, J. C. T. OLIVEIRA, E. A. TICIANELLI and A. C. FERREIRA — 195 Status of a research program on phosphoric acid fuel cells in Brazil

199 Calendar of Events
201 New Patents

Announcements

203 7th World Hydrogen Energy Conference, Moscow, 25–29 September 1988
204 International Symposium on Heat Transfer Enhancement and Energy Conservation, Guangzhou (Canton), China, 2–5 August 1988
205 International Association for Hydrogen Energy

NUMBER 4

E. ENDOH, H. OTOUMA and T. MORIMOTO — 207 Advanced low hydrogen overvoltage cathode for chlor-alkali electrolysis cells

I. ARUL RAJ and V. K. VENKATESAN — 215 Characterization of nickel–molybdenum and nickel–molybdenum–iron alloy coatings as cathodes for alkaline water electrolysers

S. U. M. KHAN, R C. KAINTHLA and J. O'M. BOCKRIS — 225 A model of photon-induced self-driven electrochemical cell for water splitting to hydrogen

A. N. PODGORNY and V. V. PASHKOV — 231 Peculiarities of thermodynamic behaviour of liquid hydrogen

D. LUPU, R. SÂRBU, R. LUPU, A. BIRIS, G. CHIRIAC and A. NEDA — 239 The behaviour of $Ti_{1.2}Cr_{1.9}Mn_{0.1}$ in hydrogen absorption–desorption cycling

K. FEUCHT, W. HURICH, N. KOMOSCHINSKI and R. POVEL — 243 Hydrogen drive for road vehicles—results from the fleet test run in Berlin

L. BROSSARD, R. SCHULZ and J. Y. HUOT — 251 Electrocatalysis by amorphous NiCoZr alloys of oxygen evolution in 30 w/o KOH at 70°C

253 Calendar of Events

255 Hydrogen Energy and Energy Related Publications and Films

Announcements

263 7th World Hydrogen Energy Conference, Moscow, 25–29 September 1988

264 International Symposium on Heat Transfer Enhancement and Energy Conservation, Guangzhou (Canton), China, 2–5 August 1988

265 An Invitation to Energy Scientists, Engineers and Planners

NUMBER 5

T. N. VEZIROĞLU — 267 Editorial: Robert Maxwell, Pergamon Press and Hydrogen Energy

R. M. QUINT and N. GETOFF — 269 Photosensitized dissociation of water using the system $Ru(bipy)_3^{2+}/TiO_2$

Z. TAKEHARA, H. HAYASHI and T. MITATE — 277 Hybrid process for hydrogen production by the use of HBr electrolysis in LiBr–KBr melts

W. DÖNITZ, G. DIETRICH, E. ERDLE and R. STREICHER — 283 Electrochemical high temperature technology for hydrogen production or direct electricity generation

K. TANNO, X. LIAO, H. YASHIRO, A. IKENOYA and N. KUMAGAI — 289 Studies of the KNO_3–I_2 hybrid cycle for hydrogen production

I. SOUCHE, A. CHATALIC and B. G. BREGEON — 299 Experimental determination of some hydrogen combustion characteristics. Its performances as a clean fuel compared to fossil fuel ones

A. KALANIDHI — 311 Boil-off in long-term stored liquid hydrogen

Technical Note

L. BROSSARD — 315 Electrocatalytic performance of a cathode material for industrial water electrolysers

H. R. HINDS — 319 News & Views

323 Calendar of Events

325 New Patents

Announcements

327 7th World Hydrogen Energy Conference, Moscow, 25–29 September 1988

328 International Symposium on Heat Transfer Enhancement and Energy Conservation, Guangzhou (Canton), China, 2–5 August 1988

329 Solutions to the Greenhouse Effect

331 International Association for Hydrogen Energy

NUMBER 6

T. OHTA — 333 Photochemical and photoelectrochemical hydrogen production from water

M. U. KLEINKE, O. TESCHKE and F. GALEMBECK — 341 New porous PTFE separator for high temperature water electrolysers

Y. SHIMIZU, N. MIURA and N. YAMAZOE — 345 Gas-phase electrolysis of hydrobromic acid using PTFE-bonded carbon electrode

T. L. YOUNG and E. M. GRAY — 351 Apparatus for time- and frequency-domain measurements of metal–hydride reaction kinetics

Z. M. WENG and D. Z. CHEN — 355 Numerical method for computation of turbulent flow field of two-dimensional hydrogen–air mixing stream with detailed chemical reaction mechanism

H. QUADFLIEG — 363 From research to market application? Experience with the German hydrogen fuel project

J. O'M. BOCKRIS and R. C. KAINTHLA — 375 The conversion of light and water to hydrogen and electric power

H. R. HINDS — 385 Hydrogen Energy News & Views

389 Calendar of Events

391 New Patents

Announcements

393 7th World Hydrogen Energy Conference, Moscow, 25–29 September 1988

394 International Symposium on Heat Transfer Enhancement and Energy Conservation, Guangzhou (Canton), China, 2–5 August 1988

395 Solutions to the Greenhouse Effect

396 5th Miami International Symposium on Multi-Phase Transport & Particulate Phenomena, Miami Beach, Florida, U.S.A., 12–14 December 1988

397 An Invitation to Energy Scientists, Engineers and Planners

NUMBER 7

G. PRASAD, N. N. RAO and O. N. SRIVASTAVA — 399 On the photoelectrodes TiO_2 and WSe_2 for hydrogen production through photoelectrolysis

S. ROYCHOWDHURY, D. COX and M. LEVANDOWSKY — 407 Production of hydrogen by microbial fermentation

K. KORDESCH and J. C. T. OLIVEIRA — 411 Fuel cells: the present state of the technology and future applications, with special consideration of the alkaline hydrogen/oxygen (air) systems

YU XIN-NAN and L. SCHLAPBACH — 429 Surface properties of chemically prepared $LaNi_5$ and its oxidation and poisoning by O_2 and CO

YANG SHENZHONG, YE RONG, HUANG TIESHENG, ZHAO SHILONG and CHEN BINGZHAO — 433 A study of the activation of FeTi and $Fe_{0.9}TiMn_{0.1}$

F. A. LEWIS, K. KANDASAMY and B. BARANOWSKI — 439 The "uphill" diffusion of hydrogen: strain-gradient-induced effects in palladium alloy membranes

H. R. HINDS — 443 Hydrogen Energy News & Views

447 Calendar of Events

449 New Patents

Announcements

451 Hydrogen Energy and Energy Related Publications and Films
459 7th World Hydrogen Energy Conference, Moscow, 25–29 September 1988
460 International Symposium on Heat Transfer Enhancement and Energy Conservation, Guangzhou (Canton), China, 2–5 August 1988
461 Solutions to the Greenhouse Effect
462 5th Miami International Symposium on Multi-Phase Transport & Particulate Phenomena, Miami Beach, Florida, U.S.A., 12–14 December 1988
463 Energex '88, International Energy Conference and Exposition, Tripoli, Libya, 25–30 November 1988
464 Manila International Symposium on Development and Management of Energy Resources, Manila, Philippines, 26–28 January 1989
465 International Association for Hydrogen Energy

NUMBER 8

iii Obituary: Valery A. Legasov

G. M. FRIEDLMEIER and J. C. BOLCICH — 467 Production and characterization of Mg–10 wt% Ni alloys for hydrogen storage

K. KORDESCH, K. HOLZLEITHNER, P. KALAL, M. REINDEL and K.-H. STEININGER — 475 Hydrogen fuel cells as direct energy converters

S. H. BROWNE, D. R. NEILL and P. K. TAKAHASHI — 483 The Hawaii hydrogen from renewable energy program

J. O'M. BOCKRIS — 489 Scientific contributions from the Hydrogen Research Center at Texas A&M, 1982–1987

523 Calendar of Events

Announcements

525 7th World Hydrogen Energy Conference, Moscow, U.S.S.R., 25–29 September 1988
526 Solutions to the Greenhouse Effect
527 5th Miami International Symposium on Multi-Phase Transport & Particulate Phenomena, Miami Beach, Florida, U.S.A., 12–14 December 1988
528 Energex '88, International Energy Conference and Exposition, Tripoli, Libya, 25–30 November 1988
529 Manila International Symposium on Development and Management of Energy Resources, Manila, Philippines, 26–28 January 1989
530 2nd International Symposium on Multi-Phase Flow and Heat Transfer, Xian, China, 21–24 June 1989
531 An Invitation to Energy Scientists, Engineers and Planners

NUMBER 9

M. I. RUSTAMOV, N. Z. MURADOV, A. D. GUSEINOVA and YU. V. BAZHUTIN — 533 Photocatalytic hydrogen generation from water—organic solutions using polytungstates

A. HAMMACHE and E. BILGEN — 539 Evaluation of thermal efficiency and cost of high temperature solar heat from central receiver systems to use in hydrogen producing thermochemical processes

D. E. HALL, J. M. SARVER and D. O. GOTHARD — 547 Hydrogen evolution cathodes with AB_5-catalysed coatings

QI-YUAN LI and CAI-QIN SONG — 563 A study on reducibility of hydrogen-producing catalysts by temperature-programmed-reduction technique

O. ENEA, A. ALI and D. DUPREZ — 569 Molecular structure and pH effects on the production of hydrogen from C_1–C_4 aliphatic alcohols

D. KUMAR and H. D. KUMAR — 573 Light-dependent acetylene reduction and hydrogen production by the cyanobacterium, *Anabaena* sp. (strain CA)

JEONG IN HAN and JAI-YOUNG LEE — 577 An investigation of the intrinsic degradation mechanism of $LaNi_5$ by thermal desorption technique

583 Calendar of Events

Announcements

585 International Mediterranean Congress on Solar and Other New–Renewable Energy Resources, Antalya, Turkey, 14–19 November 1988

586 Energex '88 International Energy Conference and Exposition, Tripoli, Libya, 25–30 November 1988

587 5th Miami International Symposium on Multi-Phase Transport & Particulate Phenomena, Miami Beach, Florida, U.S.A., 12–14 December 1988

588 Manila International Symposium on Development and Management of Energy Resources, Manila, Philippines, 26–28 January 1989

589 2nd International Symposium on Multi-Phase Flow and Heat Transfer, Xian, China, 21–24 June 1989

591 International Association for Hydrogen Energy

NUMBER 10

I. WILLNER and B. STEINBERGER-WILLNER — 593 Solar hydrogen production through photobiological, photochemical and photoelectrochemical assemblies

V. N. BUGAEV, A. A. SMIRNOV and V. A. TATARENKO — 605 The theory of the electrochemical and strain-induced interactions, phase transformations and rearrangement of atoms in the hydrogen solutions in metals and alloys

M. A. ROSEN and D. S. SCOTT — 617 Energy and exergy analyses of a production process for methanol from natural gas

T. YOSHIDA, M. OGOSHI and M. TOOI — 625 Conceptual design of 200 kW town gas reformed molten carbonate fuel cell cogeneration plant

D. STASCHEWSKI — 633 Hydrogen–air fuel cells of the alkaline matrix type: development of components

Book Review
T. RUDDY

639 Stored Sunlight: Hydrogen as the Answer to our Need for Clean Energy. Edited by Hermann Scheer

641 Calendar of Events

643 New Patents

645 Hydrogen Energy and Energy Related Publications and Films

Announcements

653 International Mediterranean Congress on Solar and Other New–Renewable Energy Resources, Antalya, Turkey, 14–19 November 1988

654 5th Miami International Symposium on Multi-Phase Transport & Particulate Phenomena, Miami Beach, Florida, U.S.A., 12–14 December 1988

655 Manila International Symposium on Development and Management of Energy Resources, Manila, Philippines, 26–28 January 1989

656 2nd International Symposium on Multi-Phase Flow and Heat Transfer, Xian, China, 21–24 June 1989

657 An Invitation to Energy Scientists, Engineers and Planners

NUMBER 11

A. SIEGEL and T. SCHOTT

659 Optimization of photovoltaic hydrogen production

P. MARUTHAMUTHU and M. ASHOKKUMAR

677 Hydrogen generation using Cu(II)/WO_3 and oxalic acid by visible light

G. S. POPKIROV, A. YA. SAKHAROVA and YU. V. PLESKOV

681 System for hydrogen production by water photoelectrolysis with p-Si and p-InP photocathodes

D. LUPU, A. BIRIŞ, G. MIHĂILESCU, R. SÂRBU and D. VONICA

685 Isotopic effects and dehydriding kinetics in the Mg_2Ni–$H_2(D_2)$ system

Y. TSUJIKAWA and M. HIRANO

691 Effects of precooling of suction air on the performance of liquid hydrogen-fueled supersonic aircraft engine

D. Z. CHEN, Z. M. WENG and X. H. LI

701 Theoretical performance evaluation of hydrogen flames

711 Calendar of Events

Announcements

713 5th Miami International Symposium on Multi-Phase Transport & Particulate Phenomena, Miami Beach, Florida, U.S.A., 12–14 December 1988

714 Manila International Symposium on Development and Management of Energy Resources, Manila, Philippines, 26–28 January 1989

715 2nd International Symposium on Multi-Phase Flow and Heat Transfer, Xian, China, 21–24 June 1989

717 International Association for Hydrogen Energy

NUMBER 12

C. MARCHETTI — 719 Acknowledgement of Reviewers

A. PARMALIANA, F. FRUSTERI, P. TSIAKARAS and N. GIORDANO — 725 Central-place theory and the key to hydrogen dominance

J. MANASSEN, M. LEV and J. HIRSCH — 729 Out of the cell performance of reforming catalysts for direct molten carbonate fuel cells (DMCFC)

G. BIGGIERO and A. BORRUTO — 735 Molybdate oxidation/reduction as the low temperature step in the sulfuric acid thermochemical watersplitting cycle

P. SELVAM, B. VISWANATHAN, C. S. SWAMY and V. SRINIVASAN — 743 Mechanical behavior of sorbitic and austenitic steels in strongly hydrogenating environments: relevant use prospects

W. H. AVERY — 749 Mg_2NiH: A new hydride phase in the Mg_2Ni–H_2 system

M. A. ROSEN and D. S. SCOTT — 761 A role for ammonia in the hydrogen economy

775 A thermodynamic investigation of the potential for cogeneration for fuel cells

783 Calendar of Events

Announcements

785 Manila International Symposium on Development and Management of Energy Resources, Manila, Philippines, 26–28 January 1989

786 2nd International Symposium on Multi-Phase Flow and Heat Transfer, Xian, China, 21–24 June 1989

787 An Invitation to Energy Scientists, Engineers and Planners

i Index to Vol. 13
